

## enCORE House at The Ohio State University

### Guidelines for Tours

An optimal tour size for the enCORE House is 10-15 people at a time. If you are planning to have a group larger than 20 people, please take the following into consideration during the planning process:

- The group will need to be split up into smaller groups as enCORE can only accommodate a maximum of 20 people at one time.
- The average tour time is 20–30 minutes, but can be adjusted if necessary.
- If your tour needs to split into smaller groups, ensure there are enough staff on your part to coordinate the groups.
- While one group is touring enCORE, we can suggest other ways to occupy your second group. Options would be to tour other campus buildings or gardens, and rotate groups to utilize your time on campus most efficiently.
- Other options within proximity to enCORE House include:
  - [Nationwide/Ohio Farm Bureau 4-H Building](#)
  - [Green Roof at Howlett Hall](#)
  - [Biological Sciences Greenhouses and Insectary](#)
  - [Byrd Polar Research Center](#)
  - [Chadwick Arboretum](#)
- You will need to coordinate with enCORE staff on parking options (i.e. number of vehicles or buses)
- Please contact [energy.environment@osu.edu](mailto:energy.environment@osu.edu) with any questions or concerns.
